The person who neglects to provide for a "Rainy Day" neglects the first duty. Every practical thinking man realizes that it is a duty he owes to himself and his family to save a portion, however small of his earnings. A saving account opened early in life and systematically kept up, will in time afford the means to grasp business opportunities. It will help to buy a home, provide in time of sickness and insure a competency and the comforts of life in old age. For Children no better or acceptable present could be made to a child than a savings account where the money is absolutely safe. "No boy ever became great as a man who did not in youth learn to save money."

The first dollar you deposit is held as a guarantee that you will return the little Bank. However, this dollar belongs to you, and can be withdrawn by you at any time you return the little bank.

DETAILS OF KILLING TRANQUIL CONDITION

How the Conspiracy Was Carried Out in the Palace.

EVERYTHING IS CALM

Only New Element in the Servian Situation Is the Talk Among Some of the Populace in Favor of a Republic.

Belgrade, June 12.—The assassination of King Alexander and Queen Draga, the queen's two brothers, the Servian premier, the minister of war and the former minister of war, perpetrated in the dark hours of Thursday morning by a band of officers and the proclamation by the army of Prince Peter Karageorgovitch, the pretender to the throne, as king of Servia, has apparently, it may be said, been accepted by the capitol and the Servian people without a murmur. The meeting of the skupstina on Monday next is now expected to confirm the proclamation as king, of Prince Karageorgovitch and to regularize the new situation.

The only new element in the situation is a feeling among the intelligent classes in favor of the abolition of a Servian monarchy altogether and the creation of a republic and this sentiment is shared by at least one member of the provisional government.

The remains of the ill fated king and queen were buried stealthily Thursday night in the chapel of St. Mark, where the members of the Obrenovich family are interred. Two priests officiated.

The government has laid claim to the possessions of the late monarch. It is not known whether he left a fortune but it is supposed that he had considerable savings, having lived economically during the last decade. It is reported that the greater part of his money was deposited in England, but it is questionable whether the money would be delivered to the Servian government. The opinion is held that all belong to the state even including the king's foreign investments. It is possible that former Queen Natalie may also appear as an heir. Queen Draga was in receipt of 30,000 gulden (\$14,550) monthly and also had great savings, which will be handed over to her three sisters. The following is a narrative of the revolution given by men who took an active part in it:

Army officers to the number of ninety assassinated the king and queen and others slain in the Konak, the royal palace.

In the greatest excitement, and feeling their way, the revolutionists climbed the stairs and entered the dark ante-room to the king's apartments. Here they secured candles and lit them. This seemingly slight circumstance was decisive to the whole action. Without light they could not have found the victims, who fled from their sleeping apartments through corridors and numerous rooms, and might have escaped, but part of the officers, with burning candles, and others with pistols, commenced to search for the king and queen. In breathless haste the conspirators ran through the rooms, opened wardrobes and looked behind curtains in vain. In the anteroom connecting with the corridor between the old and new Konak, the sergeant of the gendarmes was sleeping. Awakening, he stepped before the revolutionists, who felled him. At last Queen Draga's servant was found. He wounded Capt. Dimitrijevic severely, but was spared until he showed the officers where King Alexander and Queen Draga had secreted themselves. When he had told this, he was shot. Colonel Maschn now joined the revolutionists and led them back to the sleeping apartments, where the king's adjutant tried to hinder the search. He shot Lieutenant Maunovic dead. The others killed the adjutant. After a search a small door leading into an alcove was discovered, but it was locked. It was broken in with an ax, and here the royal couple were found in undress. The older officers first intended forcing the king to abdicate, but the young officers were in no mood to be held back, and shot the royal couple. Nobody knows, in the excitement, who shot first, but it is generally said Lieutenant Kisticks fired first.

After the murder King Alexander's body was found covered with blood. That of Queen Draga was badly torn by bullets. The report that the bodies were thrown out of the window into the garden is untrue. The young officers intended to do so, but Colonel Maschn prevented it, exclaiming, "That would be barbarous."

Queen's Two Brothers Killed.

Belgrade, June 13.—It is now confirmed that only Queen Draga's two brothers were killed. Her sisters were taken to Panchova by some of the conspirators.

Reward for Rank President.

Montgomery, Ala., June 13.—Governor Jelks has offered a reward of \$300 for the arrest of President T. J. Cornwell of the wrecked savings bank at Bessemer, who fled the country, leaving a statement acknowledging that he had misused the bank's funds. The shortage is estimated at \$235,000.

Waiters and Cooks Strike.

Chicago, June 13.—Union employees in ten of the large hotels have struck. Approximately 2000 men, chiefly waiters and cooks, are out.

Feeling of Cheerfulness Pervading People of Belgrade.

PALACE IS GUARDED.

Minister of Commerce Declares That the Late King Lost His Hold Upon His Subjects by an Unfortunate Marriage.

Belgrade, June 13.—At 12 o'clock Friday night tranquillity prevailed here. The streets practically had been deserted since 6 p. m. with the exception of small military patrols, which paraded the thoroughfares. The palace was guarded by a cordon of infantry and all ministerial residences in the vicinity of the palace were closely guarded by detachments of troops.

A general feeling of cheerfulness pervades the city, and, according to reports, the country also. The city continues to be flagged. Former Minister Tudorovics has succumbed to his wounds. Minister of Commerce Genshies, in an interview, said he considered that if there was any republican tendency in the cabinet it was insignificant. The election of a ruler, he thought, could not occur before Tuesday, but it is almost certain that Prince Karageorgovitch will be elected. Prince Mirko of Montenegro had no chance whatever. M. Genshies was reticent as to the event at the palace early on Thursday morning. He did not consider it expedient to publish an official account of what had transpired until matters had settled down. The minister added that since his accession the late King Alexander had committed constant errors and lost his hold on the public by his marriage with Draga Maschin, and the comedy played in connection with preparations for the birth of an alleged heir. The coup d'etat was fixed for June 11 because on that day Queen Draga's wish to proclaim her brother, Nikodem, heir to the throne was to have been fulfilled. M. Genshies concluded with endorsing Prince Peter Karageorgovitch as an honorable man and an earnest well-wisher of Servia.

Lived in a State of Terror.

Vienna, June 13.—It is now known that King Alexander lived in a state of terror during the last few weeks of his life. It is also stated that for several weeks Queen Draga had prepared for flight, independent of the king, who is supposed to have been gradually growing reconciled to the prospect for a divorce from Queen Draga and a marriage with Princess Xenia of Montenegro. The conspirators are reported to have learned this, and fearing this marriage would prove a continuation of the Obrenovitch dynasty, hurriedly commenced the task of extermination.

Will Exact Punishment.

London, June 13.—A special dispatch from Rome says a semi-official note published there declares that whoever is made king of Servia the powers will exact punishment of the murderers of King Alexander and Queen Draga, as civilized countries cannot tolerate that the administrative and military positions of any country should be occupied by assassins.

Sultan Nearly Unnerved.

Constantinople, June 13.—The awful drama at Belgrade caused stupefaction in the Yildiz palace. The sultan was so affected that he was unable to listen to details published in the newspapers, and allowed those who conversed with him to speak only of the "death" of the king and queen of Servia, but would not permit them to mention the word "assassination."

No Truth in the Report.

Paris, June 13.—The foreign office here received two dispatches direct from the French minister of Belgrade saying the city and country are quiet and that there is no truth in the report that a portion of the Servian army is marching to attack Belgrade.

ON WALL STREET.

Despondency and Gloom Gave Way to a Revulsion of Sentiment.

New York, June 13.—The despondency and gloom of the past few days in Wall street have given place to a sudden revulsion of sentiment and over-extended bears rushed to buy stocks. Subsequent recovery of prices wiped out the week's earlier losses. A rebound was the result of realization that prices had got down to a level where an investment demand was attracted both for home and foreign account. The large wheat crop promised by the government's monthly report, favorable railroad earnings reported, the decision affirming eight coal road presidents to refuse certain information demanded by the interstate commerce commission and decline of sterling exchange aided the recovery.

Need of Stability.

City of Mexico, June 13.—The new decline in silver emphasizes the need of stabilizing the currency of this country. Merchants had come to regard the better level of price as likely to be permanent, and had made calculations accordingly. The rising gold premium is a disillusionment, and there is a strong feeling in behalf of a better peso with the value made fixed in relation to gold.

The final ball at the agricultural and mechanical college Tuesday evening was the pre-eminent social feature of the past week, and even the large mess hall was taxed to its full capacity by the immense throng present. There have never perhaps been such a large number of visiting young ladies present, and certainly none more charming. The ladies were exquisitely gowned, the music superb and all the conditions were favorable for the enjoyment of the dance.

A party of young people were charmingly entertained Friday evening at the home of Mr. and Mrs. E. S. Wickes in the north end of town, complimentary to Misses Val Locke and Lillian Downey of Houston. Cards, music and dancing were the amusements. There were eight couples present and the affair was a surprise party arranged by the young people.

Mrs. Frank Dudley Perkins entertained the Sewing Club Thursday in a most charming manner. There were forty-five ladies present including the members, and all thoroughly enjoyed the needle work and conversation. A two course luncheon was served. The first included tomatoes stuffed with salad, peanut sandwiches, olives, salted almonds, plates garnished with nasturtiums; the second, tutti fruti cream and cake, garnishment of sweet peas.

The younger set of Bryan young people enjoyed a hay ride and moonlight picnic Thursday night on Carter's creek. There were about forty in the crowd, and they had a jolly good time and plenty of nice things to eat. Mr. and Mrs. F. D. Perkins were in charge of the party.

Mrs. F. Marion Law entertained the Chaffing Dish Club Friday evening at her pretty home. There were nineteen ladies present and the meeting was a delight to all. A game of "progressive peanuts" was played to the great amusement of all with the tables and partners as in euchre. The peanuts are removed from plates with hat pins, using only one hand. Mrs. C. A. Adams made the highest score and was the recipient of a beautiful bouquet of daisies. Mesdames Adams, Bradley and Hanway presided over the chaffing dish, assisted by Miss Jennie Hanway of Dallas. White fricassee of chicken was served on toast, with stuffed olives, pickles and cheese balls.

The Eagle reporter took a ride into the country Thursday to look at the fine Game chickens, thorough bred and fine grade cattle, and growing crops on Chas. Knoblauch's place. Mr. Knoblauch has 500 acres of land lying within two and a half miles of town, on the Pitts bridge road, and also reaching across north to the Sandy Point road. It is under a heavy five-wire fence all round, has good cross fences, and among the good points has about two hundred acres soded to Bermuda grass. Mr. Knoblauch has about a hundred and twenty-five head of cattle in here, including the fine short horn Durham male that took first prize at the Central Texas fair last year; about the same number of hogs, registered Duroc Jerseys and registered Berkshires being his strong points in hogs. Mr. Knoblauch has one of the finest strains of game chickens in the world, lots of birds as big as your fist scratching around the premises at headquarters which are worth as many one dollar bills as it would take to wrap them up. Charley has an interesting place, and in the course of development of diversification there will be many more like it in this section. He has lands on his place of all kinds, adapted to the growing of everything that can be grown in this part of Texas, from vegetables and fruits to the more staple farm products.

Whenever Coulter puts in a line of goods the price goes down 1 quart jars, best, 45 cents 1/2 gallon jars, best, 55 cents. 162

EVIDENCE FRIDAY.

It Tended to Show That Jett and White Were Hired to Kill Macrum.

Jackson, Ky., June 13.—The feature of the trial Friday was the drift of evidence toward a conspiracy implicating county officials and others and tending to show that Jett and White were simply hired to kill J. B. Macrum, who was the attorney for parties contesting the election of county officials. The defense attempted to have the case continued on account of the absence of witnesses and on account of illness of one of the attorneys for the defense. In both instances Judge Redwine ordered the trial to proceed.

JUDGE REDWINE.

The first witness was Wm. Hearst who was questioned regarding a plot to assassinate Macrum in which two county officials were implicated. Wm. Eversole and other witnesses were examined as to the alleged conspiracy.

Abner Smith and Feltner are said to have been in the plot to assassinate Macrum. Abner afterward made affidavit, which was filed in court stating the plots were formed in the office of Judge Hargis and that Judge Hargis and Sheriff Ed Callahan were furnishing the money. Mrs. Johnson testified also to this information being furnished her brother by Feltner. The defense claims these men are badly needed. They are supposed to be in Perry county. Feltner has forfeited a bond of \$3000 after being granted a new trial for the murder of Jessie I. Fields in the French-Eversole feud. Macrum was his lawyer and secured a reversal of his case. Because he was a friend of Macrum, it is alleged he was picked out to assassinate him as he would not be suspected, a pardon for the Fields murder being the reward promised.

The following officers were elected:

First Vice President—Louis Ochs, New Orleans.

Second Vice President—Jos. Lovenstein, Georgia.

Third Vice President—John S. Beal, Oregon.

Fourth Vice President—D. A. McKay, Arkansas.

Fifth Vice President—Chas. Rannenber, Massachusetts.

Secretary—Louis LaBeaume, St. Louis, Mo.

First Train Run Out.

St. Louis, June 13.—A train was run over the Illinois Central Friday for the first time since the tracks were covered after the break Wednesday. It had to run through water most of the way from the bluff, but got through all right. The officials wanted to run it on to the viaduct to St. Louis, but the police were sent with strict orders to stop it.

Strained Relations.

San Jose, Costa Rica, June 13.—The relations between Costa Rica and Nicaragua have been for the last few weeks very strained. It is stated in diplomatic circles that while the government of Costa Rica protested friendship to Nicaragua, it was aiding the revolution and cooperating with other Central American states to overthrow President Zelaya. The Nicaraguan cabinet wants an understanding with the president of Costa Rica, and has sent Secretary Sanchez to hold a conference with him to warn him against further interference.

PULLIAM SPEAKS.

Says He Is Willing to Efface Himself from Baseball Map.

New York, June 13.—M. S. Pulliam, president of the National Baseball league, who said that he knew nothing of the reported negotiations for a consolidation with the American league, is accredited with a statement as follows:

"If the majority of the National league club owners desire a consolidation of interests with the American league it meets with my hearty approval; and if this can be brought about only by the election of President Johnson as head of the combined organizations, I will gladly co-operate to that end. My tenure of office is for only one year and expires next December, and at that time I will efface myself from the baseball map. Or if Mr. Herman's views are those of the National league and the occasion for consolidation is urgent, I will willingly facilitate matters by resigning at any time before my term of office expires. I accepted the office of president of the National league only at the solicitation of the club owners and my only desire and object has been to serve the best interests of the National league, and if the best interests of the league lies in a consolidation with the American league I will gladly co-operate to that end."

MISSING WITNESS.

Anti-Hargis People Say That He Was Hired to Remain Away.

Jackson, Ky., June 13.—Attorney Byrd stated in the courtroom that the detail sent out Friday night to arrest and bring into court Henry Freeman, a badly wanted witness, had returned without the man. Lieutenant Cannard and Deputy Whittaker, sent by the commonwealth, say that Goodloe Coombs went alone on orders of Judge Redwine and surprised the soldiers. When within 100 yards of the Freeman house he ran ahead and fired two shots. He claimed he saw something on the road. When the soldiers arrived at Freeman's house he was not there. Evidences that Freeman ran away when he heard the shots were that some garments had been left behind and his imprint in the bed was fresh. His wife admitted that had been there and she was held, but Judge Redwine refused to have her as a witness. The anti-Hargis people say Freeman is an important witness and they feel that he has been hired to remain away from court. Mr. Byrd said he would have to close the case without Freeman and submitted the case of the commonwealth. Attorney O'Neal for the defense moved for peremptory instructions dismissing defendants. Judge Redwine excused the jury to hear arguments on the motion.

COOKS AND WAITERS.

They Are on a Strike in Twenty-Six Hotels in Chicago.

Chicago, June 13.—With the union employees of twenty-six hotels, including practically all the large hotels in Chicago, already out on strike, officers of the Cooks' and Waiters' unions announce their intention of again turning their attention to restaurants and cafes. They decided to stake the success of their movement for better working conditions, and, if necessary, even the existence of their organization, in an effort that is to involve the resources of their local and international unions. Particular attention, it is declared, will be given department store restaurants and their first move will be made against them. While they did their work thoroughly among the hotels, the strikers have succeeded in only partially crippling the hotel service. Many of the affected establishments served breakfast with a varying degree of success, and already there is a notable influx of outside help.

Charles Muchfeld Did This Deed in Defense of His Mother.

New York, June 13.—In defense of his mother Charles Muchfeld has shot and seriously wounded his father. Mrs. Muchfeld and her son left their apartments in New York two months ago because of the father's alleged ill treatment. The son is an electrician and, with his mother, established a home in Jersey City.

Muchfeld walked in upon them suddenly and immediately set upon his wife with an umbrella. The son interfered and was knocked down. Although several ribs were broken and he was in great pain, the lad procured a pistol and as his father rushed at him the second time he fired. Made an Effort to Stop the Carriage of the Emperor of Austria.

Vienna, June 13.—While Emperor Francis Joseph was out driving a pedestrian holding a stick in a threatening manner rushed at the emperor's carriage. The coachmen lashed the assailant and whipped up the horses and the man was seized. The incident caused some excitement. At police headquarters the prisoner was recognized as Jacob Reich, an unemployed commercial agent, who called at the Hofburg on Jan. 8 and insisted on seeing Emperor Francis Joseph, declaring he was the son of God and had brought his majesty an important message from the Almighty. Reich, who is pronounced insane, was then incarcerated, but has since been released.

It is asserted by the police that hallways of the building had been covered with oil and that bundles of rags saturated with the same substance were also found scattered about the place.

Differences Adjusted.

Kansas City, June 13.—Differences between the Kansas City Southern railway and its mechanics have been adjusted and the strike has officially been declared off. Men at the shops at Pittsburg, Kan., were paid at the rate of 31 cents an hour, and those at Shreveport, La., 33. The men asked an increase of from 2 to 4 cents an hour, which was refused. It is understood, however, that the railroad officials promised an increase at an early date. Most of the strikers have returned to work.

Gave up the Trip.

Gloucester, Mass., June 13.—Ludwig Elisenbaum, who left Boston three weeks ago in a small open dory to cross the Atlantic, has returned and given up the trip. He went 350 miles to the eastward, making the Gulf stream. There was no shelter on the boat and so much fog was encountered that Elisenbaum has been wet ever since he started. The result was that he became stiff with rheumatism and was afraid he could not navigate the boat.
